

ABOUT US

WorkingBeez.live is a technology platform that enables Job Posters (Businesses) to post jobs and Job Seekers (WorkingBeez) to show their skills & availability to get the work instantly! With our motto of Mobilize Human Capital and Local Job to the Local Community, we have designed & programmed our platform in a such a way, where local businesses can post free jobs in 60 seconds and local WorkingBeez can get the work, well within even less than 2 hours.

Our innovative technology platform has disrupted the way Job Posters and Job Seekers used to engage together. Be a part of our ecosystem and enjoy complete flexibility, control, and freedom.
